

OCCUPATIONAL HEALTH & SAFETY POLICY

It is our motto that personal injuries and dangerous occurrences should be totally avoided, which is in the interest of safety and health of both the employees, contractor, subcontractor, transporter and other agencies entering our premises as well as the employer. To achieve the same, we observe health & safety performance of all individuals at different level considering their carrier advancements. We observe safety & fire prevention programmes. Safety is everybody's first duty.

We commit to do periodic assessment to review the status on health, safety & environment assuring all remedial measure.

Accidents are avoided using all possible measures like mechanical precautions devices and by progressive promotion of safe work practices by the employee. Every employee has an important role in the accident prevention programmes and is expected to co-operate and participate fully in the measures taken for safety through continuous safety training programmes & the advice of safety committee, which will be evaluated periodically. This will be also done during purchase of plant, equipment, machinery and material as well as selection and placement of personnel.

We commit to provide resource and support in the arrangements for informing, educating and training and retraining our employees at different levels and the public, wherever required.

We trust in the belief that worker's health is our wealth and to ensure the same, we are committed for air, ground & water pollution control. The management commits to maintain safe & healthy workplace & surrounding areas. All possible measures are to be implemented for safe working environment and good industrial health.

We are committed to assess nature and scale of our occupational health and safety risks; we commit to prevent any injury and ill health, and continual improvement in our OH& S Management and performance. To ensure this we will comply with applicable legal requirements and also with other requirements for which we have identified the hazards. We shall commit to provide the framework for setting and reviewing OH& S objectives.
